

Pharmacology 2015

15-17 December
Queen Elizabeth II Conference Centre, London

	Tuesday 15 December 2015					Wednesday 16 December 2015				Thursday 17 December 2015							
08:00	08:00 - 10:00 Registration					08:00 - 09:00 Registration				08:00 - 09:00 Registration							
08:30										Track 1	Track 2	Track 3	Track 4	Track 1	Track 2	Track 3	Track 4
09:00										09:00 - 11:40 Targeting cardiotoxicity <i>Joint with the British Society for Cardiovascular Research</i>	09:00 - 11:40 CGRP and migraine: from basic science to potential for new drugs	09:00 - 11:40 Drug metabolism and antibiotic resistance in bacteria	09:00 - 11:40 UK medicines: regulatory science and innovation <i>Joint with the Medicines and Healthcare Products Regulatory</i>	09:00 - 11:40 Perivascular adipose tissue and regulation of vascular function	09:00 - 11:40 Identifying targets for the novel treatment of arthritis pain	09:00 - 11:40 Stuck in the membrane with you: The influence of drug-phospholipid interactions on receptor pharmacology	09:00 - 11:40 Paediatric clinical pharmacology: Successful planning and delivery of early phase studies in children
09:30																	
10:00	Track 1 10:00 - 12:40 Airway pharmacology	Track 2 10:00 - 12:40 Targeting cognition: a panacea for neuropsychiatric disease? <i>Joint with and supported by the British Association for Psychopharmacology</i>	Track 3 10:00 - 12:40 The hydrogen sulphide pathway as a therapeutic target	Track 4 10:00 - 12:40 Micro RNA: new diagnostics and new therapies	10:00-12:30 StR training session												
11:00																	
12:00																	
12:30																	
13:00	13:00 - 14:30 AstraZeneca Women in Pharmacology Prize Lecture																
13:30																	
14:00						11:40 - 13:30 Lunch break				12:00 - 13:30 Annual General Meeting							
14:30						12:40 - 13:30 Lunch break				12:00 - 14:00 Animal Models							
15:00										12:00 - 14:00 Quantitative Pharmacology							
15:30										11:40 - 12:30 Lunch break							
16:00										12:30-14:00 Oral Communications Basic Pharmacology VII, VIII							
16:30										14:00 - 15:00 Gary Price Lecture Professor Radu Aricescu, University of Oxford, UK							
17:00										15:00 - 16:30 Poster Session Basic Pharmacology							
17:30										Meeting concludes							
18:00																	
18:30																	
From 19:00	19:00 Welcome Reception Church House Conference Centre									18:45 - 19:30 BPS Prize Reception 19:30 Annual Dinner and Prize Giving One Great George Street							

Track 1	Cardiovascular & Respiratory Pharmacology
Track 2	Neuropharmacology / Integrated Systems Pharmacology
Track 3	Molecular & Cellular Pharmacology
Track 4	Drug Discovery, Development & Evaluation / Toxicology
