2018 Brain Injury Summit
A Meeting of the Minds
January 7-10, 2018

- Welcome Reception and Lecture -
  Evening of January 7, 2018

Vail, Colorado

BRAIN INJURY SUMMIT | 2018

Hosted by:

CRAIG
Rocky Mountain Regional Brain Injury System

This activity is jointly provided by Medical Education Resources and Craig Hospital.
2018 Brain Injury Summit: An Invitation
Retreat to the mountains for a unique gathering of national experts and rising leaders in the field of adult and pediatric brain injury care. The Brain Injury Summit, a meeting held every three years since 2012, is designed to explore best practices and cutting edge professional interventions across a comprehensive continuum of care, and to foster discussion, discovery, and professional development among attendees. The 2018 Summit will highlight emerging national clinical practice guidelines and will offer hands-on sessions to increase skill and understanding of current treatment options. If you are looking to increase your depth of knowledge, interact with innovators in the field, and increase interdisciplinary professional connections, you will not want to miss this meeting!

Conference Format
- Keynote, plenary, and panel presentations
- Scientific platform and poster presentations
- Breakout sessions and roundtables
- Educational exhibits
- Networking opportunities with other professionals

Educational Objectives
As a result of this activity, the participant should be better able to:

1. Discuss current treatment guidelines and best practices relative to the continuum of traumatic brain injury care for adults and children in the following areas:
   a. Medical diagnosis and treatment, including pathobiology, neuroplasticity, and neuroimaging
   b. Evaluation and management of mild traumatic brain injury and sports concussion
   c. Clinical interventions for management of cognitive, visual, vestibular, and motor sensory dysfunction
   d. Applied technology for rehabilitation
   e. Community resource facilitation
   f. Aging and lifelong wellness considerations
   g. Neurobehavioral assessment and treatment
   h. Legal, ethical, and funding issues.
2. Interpret current research findings and determine implications for application to clinical practice and optimizing patient outcomes.
3. Describe the impact of traumatic brain injury on survivors and their families and identify community resources to improve quality of life.
4. Enhance communication and knowledge dissemination within the network of traumatic brain injury service providers by gaining an understanding of other roles and perspectives.

*** Call for Abstracts ***
Submissions due by August 4, 2017
braininjurysummit.org

HOSTED BY
Craig Hospital in Denver is world-renowned for the specialty rehabilitation and research for patients with brain injury and spinal cord injury. Craig is a 93-bed, private, not-for-profit, free-standing rehabilitation and long-term acute care hospital that provides a comprehensive system of inpatient and outpatient medical care, rehabilitation, and long-term follow-up services. Half of Craig’s patients come from outside of Colorado, and in the past four years the hospital treated patients from all 50 states and several foreign countries. Craig treats approximately 500 inpatients and 1,500 outpatients per year. Craig is designated by the National Institute on Disability, Independent Living, and Rehabilitation Research (NIDILRR) as a Model System Center for both spinal cord and traumatic brain injury. Craig is also the NIDILRR National Statistical TBI database for the other 16 Model Systems Centers in the U.S. Craig received the prestigious Magnet Recognition in 2005-2010, 2010-2015, and 2015-2020, and the Magnet Prize Award in 2012. Craig received the American Nurses Association’s NDNQI® Award as the top rehabilitation hospital in the U.S. for quality care five times. Craig has been ranked as a Top Ten rehabilitation center by US News and World Report for 27 consecutive years, since the rankings began.

Sunday, January 7, 2018

4:45-5:00pm Welcome Remarks
Amy Berryman, OTR, MSHSA

5:00-6:30pm Keynote Plenary Session
Paving the Way for a New Era in Brain Injury Medicine and Neurorehabilitation
Geoffrey T. Manley, MD, PhD
International Cognitive Rehabilitation Guidelines and Relevant Clinical Practice
Jennie Ponsford, PhD

6:30-8:30pm Welcome Reception / Exhibit Hall

Monday, January 8, 2018

7:00-7:45am Continental Breakfast, Exhibit Hall, Registration

7:45-8:00am Welcome Remarks
Alan H. Weintraub, MD

8:00-10:00am Opening Plenary Session
Pathobiology of TBI: Opportunities for Novel Clinical Interventions
Christopher C. Giza, MD
Advances in Multi-Modal Neuroimaging Following TBI
Brian L. Edlow, MD
Neuroplasticity: Implications for TBI Rehabilitation
Steven C. Cramer, MD
Clinical Trials in Brain Injury Medicine and Neurorehabilitation
Ross D. Zafonte, DO

10:00-10:30am Coffee Break / Exhibit Hall Open

10:30-11:15am Concurrent Breakout Sessions
TBI Neurosurgical Treatment Guidelines: A Contemporary Update
Geoffrey T. Manley, MD, PhD
Acute Traumatic Encephalopathy: Recovery and Rehabilitation
David Arciniegas, MD, FANPA, FAPM
Collaborative Approaches to Swallowing, Voice, and Airway Management Following TBI
Matthew S. Clary, MD, Karen Sims Engstrom, MS, CCC-SLP
Distal Extremity Functional Rehabilitation
Amy Berryman, OTR, MSHSA, Denise O’Dell, PT, DScPT, NCS, MS

11:30-12:15pm Concurrent Breakout Sessions
Diagnosis and Rehabilitation for Syndromes of Impaired Consciousness
Joseph T. Giacino, PhD
Neuroscience of Early and Late Memory Disturbances Following TBI
David Arciniegas, MD, FANPA, FAPM
Pharmacologic Interventions for the Rehabilitation Clinician to Understand
Eric T. Spier, MD
Neuroplasticity and Opportunistic Pediatric TBI Rehabilitation
Christopher C. Giza, MD
Forensic Neuropsychology
Ronald M. Ruff, PhD, James Schraa, PsyD

12:15-1:30pm Lunch in the Exhibit Hall

1:30-2:15pm Concurrent Breakout Sessions
Neuromodulation Strategies to Promote Plasticity and Functional Rehabilitation
Jared D. Olson, MD
TBI Rehabilitation during Post-Traumatic Amnesia
Jennie Ponsford, PhD
Evidence Informed Approaches to Sleep Dysfunction Following Traumatic Brain Injury
Risa Nakase-Richardson, PhD, FACRM
The Clinical Use of Neurologic Music Therapy in Brain Injury Rehabilitation: An Analysis of Therapeutic Practice
Sarah Thompson, MM, MT-BC
Psychiatric Disorders and Traumatic Brain Injury
Lisa Brenner, PhD
Conundrums of Mild TBI: The Legal System and Workers’ Compensation
David Reinhard, MD

Visit CRAIG HOSPITAL on your way to Vail!

*** Friday, January 5, 2018, 11am-2pm ***

Craig Hospital is offering an optional complimentary tour, lunch, and pre-conference lectureship:
Mark P. Cilo Lectureship
TBI and Neuropsychological Rehabilitation: Evidence Informed Practice
Jennie Ponsford, PhD

Please check the box on the online registration form to register.

PRE-SUMMIT OPPORTUNITY AT CRAIG HOSPITAL

BRAIN INJURY SUMMIT PROGRAM
2:30-3:15pm Concurrent Breakout Sessions

TBI Biomarker Research and Clinical Applications: An Update
Ramon Diaz-Arrastia, MD, PhD

The Detection of Consciousness in Severe TBI: Useful Neuro-Imaging Diagnostic Tools for Acute Care and Rehabilitation
Brian L. Edlow, MD

Improving Psychotherapy Through the Use of a Novel Pre- and Post-Injury Neurobehavioral Inventory
Ronald M. Ruff, PhD, James Schraa, PsyD

Clinical Evaluation Tools for Competent Pre-Driving Readiness Following TBI
Eugenia Rodriguez, MOT, OTR/L

Repetitive Traumatic Brain Exposures: Domestic Violence and Sports
Jonathan Liftshitz, PhD

Pears of TBI Neuro-Litigation: Interactive Workshop for Attorneys and Expert Witnesses
Peter Burg, Esq, David P. Hersh, Esq

Vestibular Dysfunction: Evidence Informed Assessment and Interventions
Kate Smulligan, PT, DPT

3:15-3:45pm Coffee Break / Exhibit Hall Open

3:45-5:00pm Concurrent Symposium Sessions

A. Physical Rehabilitation
Customized Precision Rehabilitation Therapies Following TBI
Steven C. Cramer, MD

Advances in Motor Control Rehabilitation Following TBI
Candy Tefertiller, PT, DPT, NCS

B. Disorders of Consciousness
The Neurology of Impaired Consciousness
Brian L. Edlow, MD

Promoting Recovery of Consciousness: What Do We Know and Need to Know?
John Whyte, MD, PhD

C. Mild Brain Injury
Mild TBI: Evidence Based Diagnostic and Treatment Approaches
Grant L. Iverson, PhD

Novel Interventions for Mild TBI
Ross D. Zafonte, DO

D. Social Cognition
An Overview of Social Cognitive Disturbances Following TBI
Dawn Neumann, PhD

Emotional Recognition and Dysregulation Following TBI
Barbra Zupan, PhD

E. Pediatric School Integration
Continuum of Services for Rational School and Community Integration Following Pediatric Acquired Brain Injury
Nicole Eberle, PhD

Brain Steps and School Integration Following TBI
Janet S. Tyler, PhD

5:00-5:30pm Exhibit Hall Open

Tuesday, January 9, 2018

7:00-8:15am Interactive Breakfast Sessions

Recovery Patterns Following Severe TBI: Case Studies for Neuro-litigation and Clinical Practice
Alan H. Weintraub, MD

8:30-9:45am Concurrent Symposium Sessions

A. Sleep
Wild Night: Sleep and Circadian Disruption after Moderate - Severe TBI
Michael J. Makley, MD

Sleep Apnea and TBI: Pearls of Diagnosis and Clinical Management
Risa Nakase-Richardson, PhD, FACRM

B. Disorders of Consciousness: Evidence Based Guidelines
Evidence Based Guidelines for Managing Disorders of Consciousness
Joseph T. Giacino, PhD

Severe TBI: Transforming Guidelines into Clinical Practice
John Whyte, MD, PhD

C. Sports Concussion
Evidence Based Guidelines for the Evaluation and Management of Sports Concussion
Christopher C. Giza, MD

Predictors of Persistent Symptoms and the Role of Rehabilitation Following Sports Concussion
Grant L. Iverson, PhD

D. TBI as a Chronic Health Condition: A Symposium for Clinicians, Attorneys, and Policy Advocates
Transitioning to Community Integration and Lifelong Living within a Regionized System of Care
Janet Williams, PhD, MSW

Enhancing Self Advocacy and Community Resources
Lenore Hawley, LCSW

9:45-10:15am Coffee Break / Exhibit Hall Open
10:15-11:00am Concurrent Breakout Sessions
Biologic Frontiers and Applied TBI Rehabilitation
Mark Ashley, ScD, CCC-SLP, CCM

Emotion Recognition Dysfunction Following TBI: Assessment of Sex Differences and Therapeutic Interventions
Barbra Zupan, PhD

Functional Cognition and ADL Rehabilitation: Evidence Informed Approaches
Eugenia Rodriguez, MOT, OTR/L, Melissa Rieger, MS, OTR/L

Pediatric TBI: Overview of Medical Management
Michael R. DiChiaro, MD

Applied Uses of Electrical Stimulation for Motor Rehabilitation
Deepa Dierickx, MS, OTR

Exercise Treatment for Mild TBI: A Physiological Perspective
John J. Leddy, MD

Dementia, Aging and Neurodegenerative Consequences of TBI
Ramon Diaz-Arrastia, MD, PhD

11:15-12:15pm Concurrent Breakout Sessions
A. Scientific Paper Sessions

B. Special Interest Meeting: Models for Effective Community Integration
How to Utilize Medicaid Waiver Programs and Managed Care for Relevant Community Reintegration
Janet Williams, PhD, MSW

Effectiveness of TBI Medicaid Waiver Programs in Colorado for Meaningful Outcomes
Diane Byrne

12:15-1:00pm Exhibit Hall Open
1:00-6:00pm Afternoon Open for Recreation
6:00-8:00pm Scientific Poster Session
8:00-11:00pm PARTY ON THE SUMMIT

Wednesday, January 10, 2018
7:00-8:15am Interactive Breakfast Sessions
Concussion, Mild TBI Complications: A Wise Man Humbled
Christopher C. Giza, MD

A Hands-On Approach to Voice and Airway Management
Matthew S. Clary, MD, Karen Sims Engstrom, MS, CCC-SLP

Disorders of Consciousness: A Hands-On Approach to Performing the CRS-R
Kaitlin Hays, PT, DPT, NCS, Joseph T. Giacino, PhD, Caroline Schnakers, PhD, John Whyte MD, PhD

Vestibular Workshop: A Hands-On Experience
Kate Smulligan, PT, DPT

Neuropharmacology and Therapeutic Yoga for TBI Rehabilitation
Eric T. Spier, MD, Sarah Adleman, C-IAYT, RYTS500

Evidence Informed Guidelines for Developing Medicaid Waiver Programs and Long Term Supported Living
Janet Williams, PhD, MSW, Diane Byrne, Judy Dettmer, BSW

Integration of Functional Cognition Metrics into TBI Rehabilitation: A Hands-On Session
Eugenia Rodriguez, MOT, OTR/L, Melissa Rieger, MS, OTR/L

Emotional Consequences of Traumatic Brain Injury
Ronald M. Ruff, PhD

8:30-9:45am Concurrent Symposium Sessions
A. Outcomes
Outcome Measurements and End Point Strategies Following TBI
Steven C. Cramer, MD

Meaningful Participatory TBI Rehabilitation Outcome Measures
Gale Whiteneck, PhD

B. Language and Impaired Consciousness
Aphasia and Disorders of Consciousness
Caroline Schnakers, PhD

Aphasia and the Post-Traumatic Confusional State
Kim Frey, PhD, CCC-SLP

C. Sports Concussion
Mild TBI and Sports: Controversies and Future Horizons
Grant L. Iverson, PhD

Neurobehavioral Impairments and Psychosocial Integration Following Sports Concussions
Don Gerber, PsyD, Med, ABPP-rp

D. TBI Service Delivery Models
Building a State of the Art Culture for an Effective Post-Acute System of Care
Joanne Finegan, MSA, CTRS, FDRT

Lessons Learned for Evidence Informed Post-Acute Rehabilitation and Lifelong Living
Patricia Kearns, PT

9:45-10:15am Coffee Break
10:15-11:00am Concurrent Breakout Sessions:

Chronic Traumatic Encephalopathy: The Scientific Debate
Grant L. Iverson, PhD

Biomedical Ethics in TBI Medicine: Promoting Dignity for the Patient and Family
Michael J. Makley, MD, Gary Maerz, MD

Evidence Based Treatments for Fatigue and Sleep Disturbance Following ABI
Jennie Ponsford, PhD

Applied Neuromodulation Technology for TBI Rehabilitation
Jared D. Olson, MD

The Value and Implementation of Evidence Based TBI Medical Treatment Guidelines: The Colorado Experience
Kathryn L. Mueller, MD, MPH, FACOEM

The Practical Use of Virtual Reality for Traumatic Brain Injury
Erin Muston-Firsch, OTR

Alexithymia
Dawn Neumann, PhD

11:15-12:00pm Closing Plenary
TBI Science and Evidence Informed Clinical Practice: Tying it all Together
Geoffrey T. Manley, MD, PhD
REGISTRATION
braininjurysummit.org

Registration until October 16, 2017:
$575.00 per registrant
Registration after October 16, 2017:
$625.00 per registrant
Groups of 3 or more, student registrant, accepted poster or scientific paper presenter:
$525.00 per registrant

For more information, please contact
Amy Berryman at 303.789.8611 or bisummit@craighospital.org

For information regarding Support and Exhibit opportunities, please contact
Heather Both at 303.789.8289 or hboth@craighospital.org

We hope to see you in January 2018 in Vail, Colorado, for an unforgettable experience and networking opportunity!

Americans with Disabilities Act
Event staff will be glad to assist you with any special needs (ie, physical, dietary, etc). Please contact Jennifer Allport prior to the live event at 303.789.8397 or jallport@craighospital.org

Cancellation Policy:
Craig Hospital reserves the right to cancel this conference due to unforeseen circumstances. A full refund of the registration fee will be provided in this instance. Craig Hospital is not responsible for travel expenses. Cancellation by an attendee will result in a refund of the registration less a $75 processing fee. Notice of cancellation must be received in writing no later than Monday, January 2, 2018. Please note that if you register and do not attend for any reason without written notice you are still responsible for the registration fee.

CME/CEU Information
The 2018 Brain Injury Summit has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Medical Education Resources (MER) and Craig Hospital. MER is accredited by the ACCME to provide continuing medical education for physicians.

Continuing Education Credits Per Discipline:

Physicians:
Medical Education Resources designates this live activity for a maximum of 16 AMA PRA Category 1 Credit(s)**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses:
Medical Education Resources is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation. This CE activity provides 16 contact hours of continuing nursing education. Medical Education Resources is a provider of continuing nursing education by the California Board of Registered Nursing, Provider #CEP 12299, for 16 contact hours.

Dietitians:
Medical Education Resources (Provider Number ME110) is a Continuing Professional Education (CPE) Accredited Provider with the Commission on Dietetic Registration (CDR). Registered dietitians (RDs) and dietetic technicians, registered (DTRs) will receive 16 continuing professional education units (CPEUs) for completion of this program/material.

Clinical Case Managers:
CCM credits are being sought through the CCMC PACE Program for 16 hours of education.

Attorneys:
CLEs are being sought through the Colorado Supreme Court Board of Continuing Legal and Judicial Education for the equivalent 16 hours of education.

Other Professionals (psychologists, neuropsychologists, occupational therapists, physical therapists, speech therapists, recreation therapists, music therapists, and others):
This conference qualifies for 16 contact hours through Medical Education Resources, recognized by many national, state, and local licensing boards and professional organizations. A conference syllabus and certificate of attendance will be provided. Please contact your professional board or organization for specific filing requirements.

Disclosure of Conflicts of Interest
It is the policy of Medical Education Resources to ensure balance, independence, objectivity, and scientific rigor in all of its educational activities. In accordance with this policy, MER identifies conflicts of interest with its instructors, content managers, and other individuals who are in a position to control the content of an activity. Conflicts are resolved by MER to ensure that all scientific research referred to, reported, or used in a continuing education activity conforms to the generally accepted standards of experimental design, data collection, and analysis.
Proceeds from the 2018 Brain Injury Summit will benefit patient assistance programs for survivors of brain injury and their families.
